This generally only applies to the State's witnesses and co-defendants in the case; although, the wording on the order itself is vague.

At this point, she is not officially declared as a witness and is not on the State's witness list which only contains the two cops, Jeremiah Johnson, Jana Johnson, Brandon Huntington, and Jamie Nyenhuis.

Nonetheless, I can reach out to the prosecutor in advance and see if they will agree that that condition does not apply to her if you want.

I asked Justin Tittus about the condition of not contacting witnesses, earlier in this case. I expressed concern as I provide a substantial amount of much needed help for Mrs Hrpcha which she otherwise is not able to afford. Help with her shopping, her chores, shopping, laundry and her dogs which I am helping her train. I have told Justin during the first week, in a hearing at the courthouse, I requested access to ask the court for provisions for Mrs Hrpcha and Justin informed me that he didn't see her listed as a "witness", therefore there was no problem at that time with Mrs Hrpcha being in contact with me.

My concern now would be restrictions on communication with Mrs Hrpcha, if I add her as a witness. Obviously this is a matter with importance since I generally see Mrs Hrpcha every day and she is in fact going to be driving me to court on Monday.

What are your thoughts?

Thank you

Alright, I can file it into the court file and provide it as discovery to the prosecutor.

However, if the case proceeds to trial, the court will want live testimony from fact witnesses.

Sean,  
Until otherwise informed, I am still reliant on you and need you to file this onto the record into evidence please.  
Thank you.
