DEAR RYAN:

Here's my response to your most recent email (my responses are yellow and in italics):

I'm still trying to get ahold of you to get Alan update on what has been done to address the issue of Jeremiah's mother who is the stenographer or I should say was the stenographer for most of the past year although the last appearance she was not there.

I have a serious problem with the fact that Jena and Jeremiah introduced the woman [*Barbara Scoville was the most recent court reporter for Chelan County Superior Court, but I don't believe she works there anymore*] as Jeremiah's mother when we got to their residence.

I have numerous emails to prior counsel and so far nobody has formally acknowledged this concern and it is deeply concerning as the woman has responsibility concerning being court records. Could you please update me on the situation and if need be, I can create my own motion to deliver at our next appearance for this issue [*I'm rather confused: what is the nature of this motion? What do you want the court to do about this?*].

As far as tow trucks:

I've put together a number of citations, state and federal, which explicitly mandate tow trucks bear the name of company and home city they belong to [*What does this have to do with the pertinent issues in your case, which is whether or not you threatened to kill 3 people?*]. The red tow trucks bare depicted throughout the evidence is clearly labeled B&T of cashmere Washington state. There was no other tow truck. I have photos and videos of the tow truck driving behind my pickup which was driven by the man in the photo which he indicated was his tow truck, and the same man eventually surrendered interest in my truck full stop [*What does this have to do with the issues in your case, i.e., whether or not you threatened to kill 3 people?*].

Further, I have seen the original unedited evidence videos which very clearly establish the deputy asking for tow or service invoices and being very clearly told three times that there was no bill [*What does a tow or service invoice have to do with whether or not you threatened to kill 3 people?*] There was never a tow he admitted to driving my truck [*They retrieved your truck from way back up in the mountains*]. And there was no service rendered [*Yes, there was—they purchased a new wheel and tire, drove 3+ hours, and retrieved your truck for you—that most certainly constitutes a service*] other than the wheel & tire he delivered which I did not want and he admitted to deputy he removed it [*The tow truck people removed the new wheel / tire after they got your truck back down and you were disputing their bill*]. The deputy was even told very clearly, that they put my original wheel back on and aired it up [*I don't know from where you got that notion, but the tow truck drivers put the new wheel / tire on, and then drove your truck back down; the tow truck drivers said your tires were completely shredded and your spare wheel was totally ruined from driving on it*] to make the truck roadworthy.

The same man then drove my passenger to the park and ride where he left her after ensuring she could operate my vehicle. She drove it to Cle Elum before the tire went flat again, and we had to get AAA to tow it here *[What does this have to do with whether or not you threatened to kill 3 people?]*.

For a dispute of magnitudes erupting into alleged threats as they claim, it's bizarre they would just let the truck go as they did.

I now have confirmation of Jeremiah is operations manager for Rivercom, but still no word on his fire employment *[He is a volunteer firefighter]*. As it was, he impersonated a city firefighter *[Actually, no, he didn't because he is in fact a volunteer firefighter for Wenatchee Valley—not any city]* at the scene and the narrative that an understaffed call center had the ability to spare Jeremiah for some sort of volunteer fire duty, on Fourth of July, is absurd *[I don't understand why that is so absurd]*.

Additionally, the claim that he left his volunteer fire duties to volunteer for whatever our emergency was, even if it were death, is even more unbelievable *[Who said he was doing any firefighting duties at that time? He is a volunteer firefighter—they are normally off-duty unless specifically dispatched to help]*. It might even be illegal or violates department policy *[I would be shocked if Jeremiah voluntarily helping a stranded motorist is illegal or a violation of department policy]*. But that's a lot of hops down the rabbit hole spinning a yarn claiming he is basically derelict of two jobs to come take us to his "personal residence". I can't see why he'd do that when he's on call, Fourth of July *[You don't seem to understand the nature and responsibilities of a volunteer firefighter]*.

I have real problems with Rivercom's denial of Jenna being their employee, also. There are a dozen key indicators that she is either a Rivercom employee and they are lying; or she was accessing Rivercom tech as a nonemployee, and abusing it to harm me and my passenger *[How is this relevant to whether or not you threatened to kill 3 people? Even assuming your allegations are true, I can't fathom how they are relevant—unless your claiming self-defense]*.

Most notably, in one video Jenna is heard quietly bragging to Jeremiah and another about how she "just hung up" on me, and my back is to the camera as I struggle to call state patrol in a desperate attempt to get help after Jenna struck me in the face nearly knocking me out *[I didn't see anywhere on the video where Jenna struck you]*. Jeremiah stood next to her watching while I scrambled backwards to escape a physical attack; the original video also shows Jeremiah sprint after me reaching for his gun *[Where in the videos is this?]*. This is attempted murder *[Sorry, but I don't understand how Jeremiah attempted to murder you]*. Clear and plain, and I've already reported this to federal DoJ and other state officials.

The behavioral analysis clearly indicates I'm not threatening and I'm very carefully attempting to create space and diffuse multiple unwarranted attacks *[Did you watch all 8 videos? I mean, you seemed very irate and hostile and acrimonious the entire time]*.

This case was a political kidnapping and conspiracy to commit murder and there is no way you cannot see the mountain of discrepancies in their case *[To be honest, I can't see the "mountain of discrepancies"]*. But, again, what does this have to do with whether or not you threatened to kill 3 people?]

The neon light, 10,000 lb gorilla in the room though which should signal you to criminal malfeasance by Jeremiah; is the fact that on 4th of July he took us to his home. And the tow truck lie we know 911 doesn't do roadside *[It was a medical emergency dispatch—not roadside aid]*.

I have about a dozen incredibly damning pieces of evidence which clearly prove Jeremiah was acting on a non-Rivercom, non-CHELAN county employee's directives and willfully carried out egregious conspiracy to kidnap and commit murder. None of it is circumstantial *[Would you please provide me with your "damning pieces of evidence" because, to-date, all I have seen or heard are your own speculations]* and I have to notify you of this because on the off chance that you aren't seeing what's clearly occurred *[I will be honest with you: I'm not seeing what you're alleging; but, even assuming you're allegations are true, how are they a defense to whether or not you threatened to kill 3 people?]*, I don't want you feeling trapped.

Again; in addition to me being innocent of these charges; I was a law-abiding park visitor *[I'm still confused as to why you keep stating that there was a "park" up there; I assure you, there is no "park" up there]* who got caught in a bad jam because some I had with me did not bring her insulin and I got a flat tire. I beat the ever living dog piss out of my old pickup to get her back to services. Then Jeremiah and Jena decided for whatever reason they were gonna steal my truck through some scheme with their buddy from b&t towing flat over in cashmere. If you need, I'll send you the statutes regarding tow truck markings *[I don't want the statutes regarding tow truck markings—they're not relevant regarding whether or not you threatened to kill 3 people]*. You can't just drive a truck and say "but I work for cuz towing". It has to be painted on and large to specified dimensions. This was a newer truck with nice new painted logos names etc. I have photos of them coming down the road. Unloading their atv. And my passenger is witness to this all as well.

Whatever Jeremiah did isn't my fault. Probably only half his fault. I told the prosecuted once already; I'm done playing games and I will not stop unraveling this mess they created in our lives, for no legal reason. There isn't even any moral reason.

Are they mad at me for exposing Jay Inslee's pump and dump campaign mockery when he ran against Trump then dropped out? Look up what Inslee's odds were. Like 1 in 600 million. So, if Inslee is legitimately mad about that he's really dumb I guess. Maybe he's mad how I informed people that Inslee's entire campaign was a fraud; to garner campaign contributions then drop out and keep them, per campaign finance law.

And maybe it's payback for helping the Seattle times locate former mayor Ed Murray's cps scandal where he ADOPTED then molested a black kid in the 80's. They knew of his skeletons in his closet the day he got elected, there's been much convo about the FOIA release of mayor's phone logs, etc. So, they put a serial child rapist into the office of Seattle mayor? Come on, man. You and I both know what that's about, and, if you are ok with me being silenced like this, then let's note that.

But, so far, I don't know what is going on with this highly irregular case, to put it nicely. I keep refraining from lawsuits hoping the prosecutor will wise up. But he thinks a false incarceration followed by execution or another longer incarceration is his strategy.

You are on the losing side with this one. I'm sure of it. Sounds like wishful thinking, but these are extremely deadly criminal actions which Jeremiah, Jena and the rest engaged in. I have the cooperation of enough people to ensure that accountability is ultimately delivered from a higher court in the event I am wrongfully convicted but I have. Better things to do with my life. For over two years now I have been harassed by malicious prosecutions.

This case has no merit and it is a pitiful attempt to cover up gross violations of multiple people's civil, and constitutional rights. The unimpeachable evidence I have is absolutely enough to prove that, without a doubt, evidence was tampered *[Where is this "unimpeachable evidence"?* *Can you please provide it to me?]*. And, most importantly, it clearly proves that a serious, sophisticated plot to murder me in cold blood was conspired by Jeremiah and numerous other county agencies by using Jeremiah's unlimited access to Rivercom operations and technology and the ability, so he thought, to recruit or draft in B&T tow operators, CHELAN deputies, and Wenatchee fire. WA state emergency management has failed to cooperate enough already to obvious red flags which programmatically should have triggered a heavy investigation; and this tells me they are also complacent.

What in god's name could possibly be rumored to have ever been a part of which justifies this all? Personally, I don't get it. Because I'm not a criminal and have for no wrong. These are sick criminals, corrupt opportunist who are terrified of me roaming the state and exposing their crimes. And I am not even the one finding it. I just have the loudest voice to share it. And in the words of a local politico out there recently who I talked to about this matter; it's my DUTY to not only make a report of this ordeal. But to make sure every one hears about it.

I've been patient and I am waiting for verdict to broadcast these findings. Because nobody should be allowing any of these people to keep their jobs after this. This is absolutely sickening.

The prosecutor has extended to you 2 settlement offers:

- 1. Plead guilty to 3 counts of Felony Harassment (range 4-12 months). Prosecutor would agree to recommend First Time Offender Waiver, which means you'd be sentenced to 0-90 days in jail; and 6-months community custody (probation); or*
- 2. Plead guilty to 2 counts of Felony Harassment (range 3-8 months). Prosecutor would agree to recommend the low end 3-months and 6-months community custody.*

Sincerely,

Brian Chase
