Justin,

Good evening. I'm not sure what the outcome of today's hearing is or what my next steps are. Since it's clear to me that I am being denied equal justice I want to highlight some concerns and reasons followed by my desired outcomes or solutions. I appreciate you taking the no one to read this.

I haven't had any significant time to get acquainted with the cases evidence witnesses or discuss even preliminary high level defense strategies. This case stems back to July 4th so I think it should be obvious that it's bothering you somehow to do so, and either way it's too serious for me to give you any more chances.

We have agreed to talk dozens of times and I have yet to really get a quality conversation with you to shape up the case for trial, and hear we are already facing readiness.. again.

I've left multiple emails and text and calls; dozens trying to get b the court date confirmed and you would not reply back. What's stranger is the court clerks told me I could not obtain my court date info with no case number and they constantly refer me to you. It's almost like I'm being manipulated and gas lighted and it all feels very immature and childish to say the least.

Today's ordeal of being scolded about missing TEO dates when the date I had last noted was the 18th... this isn't my style. I do my homework. I'm on time. I graduated Cum Laud in an accredited engineering school. Worked my through dual majors in info science. Slouch I am not. And don't like being mistreated and lied to.

This case is a wonderful mess and it very likely has some officials in Wenatchee and probably Seattle also; sweating. Not my intention but also not at all my fault, either.

You see I simply called for medical help for my disabled friend and we were told our only option was to get on a personal car with strangers... and being the good hearted person of trusting faith who I am; I no was taken for a ride.. no pun intended.

I surmise we were lucky n to escape alive and I have some key details which are illustrated by the "victims" own statement, photographs and probably the 911 call recordings which is another issue entirely.

I've demonstrated that there were nefarious bad actors in this event. People who targeted us before we even called for the ambulance. Then I s things escalated there was an unknown person who was ushered out the back door and coached to flee fast before the police arrived. This woman as it turns out, was SALLY BAGSHAW. Former senior prosecutor and city council in Seattle. Embattled representative who aggressively protected Ed Murray even after his incredibly I disgusting history of pedophilia accusations made by African American Foster Children.

There seems to be a pattern here with these people.

Violate public trust

Gas light victims

Play victim while doing horribly things

Accuse the accusers of being the culprits

Without a doubt Sally Bagshaw will have to get real creative to explain what she was doing at that crummy ranch house and why she attempted to flee before police arrived.

One of the main reasons this case cannot proceed until I formally have a chance to obtain new counsel;
The court staff I pointed out our first day... superior court stenographer. She was actually involved in the rouse.

The merits of the case I feel, represent a clear case of kidnapping and extortion. We were told the only way my friend wouldn't die, is if we got into these folks car. Initially dispatch also lied and said we were going to be picked up by city councilman. Instead it was rather more dispatchers for the questionable Riverside.

In addition they interfered with a medical duress call.

And most disturbing of all

In the reports and statements; they made multiple attempts to get me to leave alone. Without my passenger who needed insulin.

No sense in claiming they had intended to help her because they never did get her medical attention. So that's not why.

I believe the plan was to kill her then chase me down and kill me, then create a false report that I fled the scene after killing g her. Or even worse yet, kill her then arrest me and blame me for the murder.

One thing surely though; she wasn't being held onto for ransom. Or conversation. Or humor. Or money.

I know in my heart that the plan in Wenatchee called for death to at least one of us, and then incarceration or death to the other (myself). That makes me incredibly sick and I've been perplexed by the revelations this past year in the things I've discovered afoot around me.

It's sick! And I am not sitting down quietly, I have tactfully presented my findings to a variety of agencies and entities and my goal is I to eradicate these criminally corrupt city I people so no more innocent people are harmed.

I am asking respectfully for two things:

- 1:) your resignation from this case; and I presume you are released to hear that. I get it. No hard feelings.
- 2:) formal request for change of venue due to excessive concerns of witnesses and personell with conflict of interest;
 - A) stenographer
 - B) Riverside dispatcher #1
 - C) Riverside Dispatcher #2
 - D) Riverside dispatcher #3

These people occupy N salaried positions within the very same courthouse as the halls of justice I am no expected to press my case before; and I think it's foolish to pretend there will be a fair trial of held in Chelan or Douglas.

I'd hope for some place like Olympia since we now have emerging evidence of a major political scandal amidst this case. I'd request to be in the presence of a jury and court personnel who can ensure integrity with a jury trial which involves sophisticated deep state orientated bad actors and brazen corruption, disdain for justice, and a sort of grand malfeasance which most mid sized communities are scared to approach.

The only Good Samaritan that day was myself.

I will continue to comply with court directives and I won't miss any hearings but I have to have access to proper channels in order to learn what my obligations are. I feel like I probably sound patronizing when I say things like that, but I can't see any other way to express that without having access to a lawyer or being told n when new court dates are scheduled; I can't see how I am expected to show up.

Further; it's my understanding the original al court date was on the 5th. I missed that not knowing so they scheduled me a new court date for today. How am I supposed to know that?

The gist I of it all feels like I'm being toyed with by a judge that has some sort of childish vendetta for me. Which is pretty sad since I have no prior experience with any of you. And if my free speach offended you this much, you folks picked the wrong profession. Because this country and our bygone laws as well as our spirit moving forward; are founded firmly around this Nations unrivaled no holds barred FREEDOM OF SPEACH.

I'm not sure where you learned but I have no doubt t you must have studied more law then I have; but one of my most formative experiences was a Jewish Holocaust survivor I had for a teacher in grade school; and she spent an entire

week covering the topic at that time in the 1980's, about Skinheads and the Aryann Nation, the KKK etc. As kids we couldn't believe it was tolerated. "Surely it's illegal!". No, it's not. She explained. She went on to quote and provide examples illustrating how the country can only hold up free speech rights by protecting the most hated speech first. And she taught us that she doesn't care for it but she doesn't have to. And it's not her life she doesn't have to live that way. They do. It doesn't bother her.

I'm no right winger. Not racist. I do have concerns about pedophiles grooming school kids. I do have concerns with phony liberals and vocalize them. But that's because I was raised in an established democratic family and felt they failed to do the right thing too many times. And to be honest it was just this sort of dishonest conduct.

For the level of contempt one of two things is occurring. You all are spending too much time on my social media where I've been bound to whole undergoing this trial. Or you have a particularly right wing mind set, regardless of party identify. We are all fluid social animals. Don't get hung up on my personal life of acting a fool online to pass time etc.
