Justin

I'm frustrated about the potential loss of exculpatory evidence in my case. This incident happened back in July 4th and I still have not heard from anyone regarding the 911 call logs.

I think the dispatch call logs are very fragile since the alleged victims in this case are actual dispatchers and the case involves at least three dispatchers from the same dispatch call center (riverside).

I have not had a chance to talk to you regarding this incident and I am bound by a court order to not contact said witnesses so thereby I am prohibited from obtaining these records myself.

I am contacting the regional FBI office as well as state patrol today to attempt to create an incident report and express my grave concern that justice is being denied to me and exculpatory evidence is intentionally being scuttled by the city of Chelan.

The 911 call very clearly was an emergency call to get ambulatory care for my passenger who is a 60 year old diabetic and was going into insulin shock due to extreme conditions and not having her insulin for two days in extreme heat without food or water. They were very clearly told numerous times that I was not asking for mechanical help of any sort and I would deal with my vehicle myself.

This is absolutely the most absurd and ridiculous case I am aware of. It's ludicrous it's being charged and it's extremely disturbing that nobody is talking to me about my case and I have yet to obtain legal defense who will acquire the absolutely critical and exculpatory 911 recordings.

Again, given that these alleged victims are all dispatchers at the very center my call was made to: it's critical to obtain these call logs and recordings asap.

Please let me know what the situation is. I can't help but think that this is collusion. The judge should have been able to see this case was a complete farce and they were absolutely criminal for kidnapping holding hostage then extorting me.

You guys need to realize that this isn't some joke to me and I need some answers. I won't sit on my hands while you folks disappear my 911 call recordings. I will be as proactive as possible and contact everyone I can.

If you cannot find the time to do it then please schedule me a hearing so I can request permission to obtain them myself.

Thank you Justin. If you are truly swamped I get that, and I am sorry and didn't mean to come across as angry. I'm just facing a lot of time for a crime I never committed, three felonies.

I haven't had so much as even a speeding ticket or late library book since 2002. I put myself thru accredited university, started three LLC's one of which was in Wenatchee (Apple Valley Pc), I have pushed hard to stay on my own two feet after divorce and homelessness in nyc where I was during Covid. I worked my way across the country to come home to be with my 98 year old grandmother who is in last years. This is robbing me of that.

I did nothing wrong. These scumbags were not good Samaritans. They were bandits who laid a booby trap on public land then denied a sick woman emergency medical care and berated the man who called her help, and attempted to extort money. They destroyed my vehicle which I have had for almost a decade and driven all over this country to work, move my wife and I, and also to volunteer which I can substantiate a lot of free voluntary trips to work with a variety of agencies.

This incident absolutely DISGUST ME. It has me ready to puke. I am outraged that bc the city of Wenatchee is engaging in a cover up of this magnitude, for some toothless creeps. Predators is what they are. I'll be waiting for a reply. Thank you for your time
